

Butterfly Teacher Pack

Read-Aloud Introduction

Join Sissy and her friend Buddy in the tall-grass Edge as they discover that bravery isn't about being fearless, but having the courage to try something new. Together with the glowing emotes of Flitter, we learn how a tiny spark can make even a scary shadow feel like an adventure waiting to happen.

Let's Talk About It

Think of one small thing in your life you are nervous about right now; if Sissy were standing next to you today, what encouraging word would she say to help you take that first little step?

Go and Do

Find a patch of green grass or carpet where it feels safe and comfortable. Close your eyes for three quiet seconds to imagine the Enchanted Forest appearing right in front of you, then take one slow 'brave' breath and whisper what makes YOU feel like an explorer today.

Made by a teacher - adapt freely for your classroom or couch.
A free companion to the first Sissy the Butterfly picture book. Ages 3-7.
