

Rainbow Breaths

Big feelings are okay - this is one thing that can help.

1. Sit tall like a flower reaching for the sun.
2. Breathe in slowly and picture a soft red.
3. Breathe out and let the red float away.
4. Do it again with orange, then yellow, then blue.
5. Notice how your body feels calm and quiet.

- A grown-up can breathe along. Slow is the whole point

- there is no wrong way.

Ages 3-7 - A Sissy calm-down card
